Teide

El diseño sorprendente de esta colección representa un análisis de la potencia visual de líneas sinuosas texturas y colores. El concepto se presenta como un himno sugerente a la dualidad de la materia, que fusiona el idealismo y el pragmatismo. La creatividad reside entre las formas que han sido creadas armoniosamente en un espacio caracterizado por crateres fluidos y que parecen estar en constante movimiento.

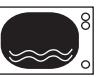

La conception étonnante de cette collection représente une analyse de la puissance visuelle des lignes sinueuses textures et couleurs. Le concept est présenté comme un hymne évocateur à la dualité de la matière, qui fusionne l'idéalisme et le pragmatisme. La créativité se trouve parmi les formes qui ont été harmonieusement créées dans un espace caractérisé par des cratères fluides qui semblent être en mouvement constant.

The surprising design of this collection represents an analysis of the visual power of sinuous lines textures and colors. The concept is presented as an evocative hymn to the duality of matter, which fuses idealism and pragmatism. Creativity lies among the forms that have been harmoniously created in a space characterized by fluid craters that seem to be in constant movement.

2018: Mientras en la televisión arrasan los programas de cocina y los nuevos electrodomésticos hipertecnológicos, puraSangre vuelve a los orígenes y crea Cántabro y Sucro, una herramienta realizada en stoneware para los nuevos hombres de las cavernas. Hay algo en el hecho de cocinar siguiendo las tradiciones, un alma que ennoblecen la comida. Cocinar con las manos, sin utilizar aparatos, ayuda a descubrir los alimentos, su consistencia y su esencia. De igual modo, contribuye a la diversión, así como a dar un verdadero sentido a la cocina, a hacerla propia, única y personal. En definitiva, convierte el acto de cocinar en un auténtico ritual... y en un juego.

2018: tandis qu'à la télévision ils rasent les programmes de cuisine et les nouveaux appareils hypertechnologiques, le sang pur revient aux origines et crée le Cantabrique et le saccharose, un outil fabriqué en grès et en porcelaine pour les nouveaux hommes des cavernes. Il y a quelque chose dans la cuisine qui suit les traditions, une âme qui ennoblit la nourriture. Cuisiner avec les mains, sans utiliser d'appareils, aide à découvrir la nourriture, sa consistance et son essence. De la même manière, il contribue au plaisir, ainsi qu'à donner un sens vrai à la cuisine, pour le rendre propre, unique et personnel. En bref, il transforme l'acte de la cuisine en un véritable rituel... et dans un jeu.

Collection

Cántabro

2018: While in television they raze cooking programs and the new hypertechnological appliances, pure blood returns to the origins and creates Cantabrian and sucrose, a tool made in stoneware and porcelain for the new cave men. There is something about cooking following the traditions, a soul that ennobles the food. Cooking with your hands, without using appliances, helps to discover food, its consistency and its essence. In the same way, it contributes to the fun, as well as to give a true meaning to the kitchen, to make it own, unique and personal. In short, it turns the act of cooking into a real ritual... and in a game.

Tenemos una relación muy próxima con nuestro entorno, la cual afecta a nuestro bienestar social, emocional y psicológico. El ambiente y los objetos influyen en nuestro comportamiento y también lo condicionan; dictan nuestras rutinas, cómo vivimos y cómo nos relacionamos con los demás. Por lo tanto, cuando cambiamos las cosas que nos rodean, podemos cambiar nuestro mundo. Cuando modificamos lo que nos rodea, cambiamos nuestra conducta social, lo que significa que podemos mejorar el mundo a través del

diseño.

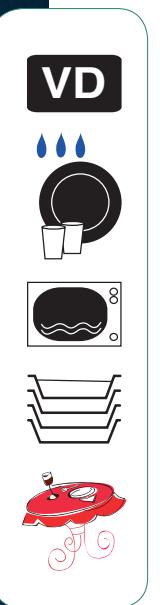

Nous entretenons une relation très étroite avec notre environnement, qui influe sur notre bien-être social, émotionnel et psychologique. L'environnement et les objets influencent notre comportement et le conditionnent également; Dicter nos routines, comment nous vivons et comment nous nous relions les uns aux autres. Par conséquent, lorsque nous changeons les choses autour de nous, nous pouvons changer notre monde. Lorsque nous modifions ce qui nous entoure, nous changeons notre comportement social, ce qui signifie que nous pouvons améliorer le monde grâce à la conception.
